

Web Application Testing

Website Name: Swag Labs

Tester: Mark Daniel M. Capulong

Date: May 12, 2026

Browser Used: Google Chrome

# Feature to Test on the Web Application:

1. Add to cart
2. Checkout

## Acceptance Criteria:

1. The user can add products to the cart.
2. The user can proceed to the checkout and complete the purchase.

## Test Case 1

| Field            | Example                                        |
|------------------|------------------------------------------------|
| Test ID          | TC-000-A                                       |
| Title            | Check for available items                      |
| Steps            | Log in -> Wait for the main page to load       |
| Expected Results | Available items will be shown after logging in |
| Status           | Pass                                           |
| Remarks          | Template variable are shown on 2 items         |

Evidence:

**Sauce Labs Backpack**  
carry.allTheThings() with the sleek, streamlined Sly Pack that melds uncompromising style with unequalled laptop and tablet protection.

\$29.99 Add to cart

**Sauce Labs Bike Light**  
A red light isn't the desired state in testing but it sure helps when riding your bike at night. Water-resistant with 3 lighting modes, 1 AAA battery included.

\$9.99 Add to cart

**Sauce Labs Bolt T-Shirt**  
Get your testing superhero on with the Sauce Labs bolt T-shirt. From American Apparel, 100% ringspun combed cotton, heather gray with red bolt.

\$15.99 Add to cart

**Sauce Labs Fleece Jacket**  
It's not every day that you come across a midweight quarter-zip fleece jacket capable of handling everything from a relaxing day outdoors to a busy day at the office.

\$49.99 Add to cart

**Sauce Labs Onesie**  
Rib snap infant onesie for the junior automation engineer in development. Reinforced 3-snap bottom closure, two-needle hemmed sleeved and bottom won't unravel.

Add to cart

Test.allTheThings() T-Shirt (Red)  
This classic Sauce Labs t-shirt is perfect to wear when cozying up to your keyboard to automate a few tests. Super-soft and comfy ringspun combed cotton.

Add to cart

## Test Case 2

| Field            | Example                                   |
|------------------|-------------------------------------------|
| Test ID          | TC-001-A                                  |
| Title            | Add Items to cart                         |
| Steps            | Choose item -> Click “Add to cart” button |
| Expected Results | Item will be added to the cart            |
| Status           | Pass                                      |
| Remarks          | Items are added to the cart               |

## Test Case 3

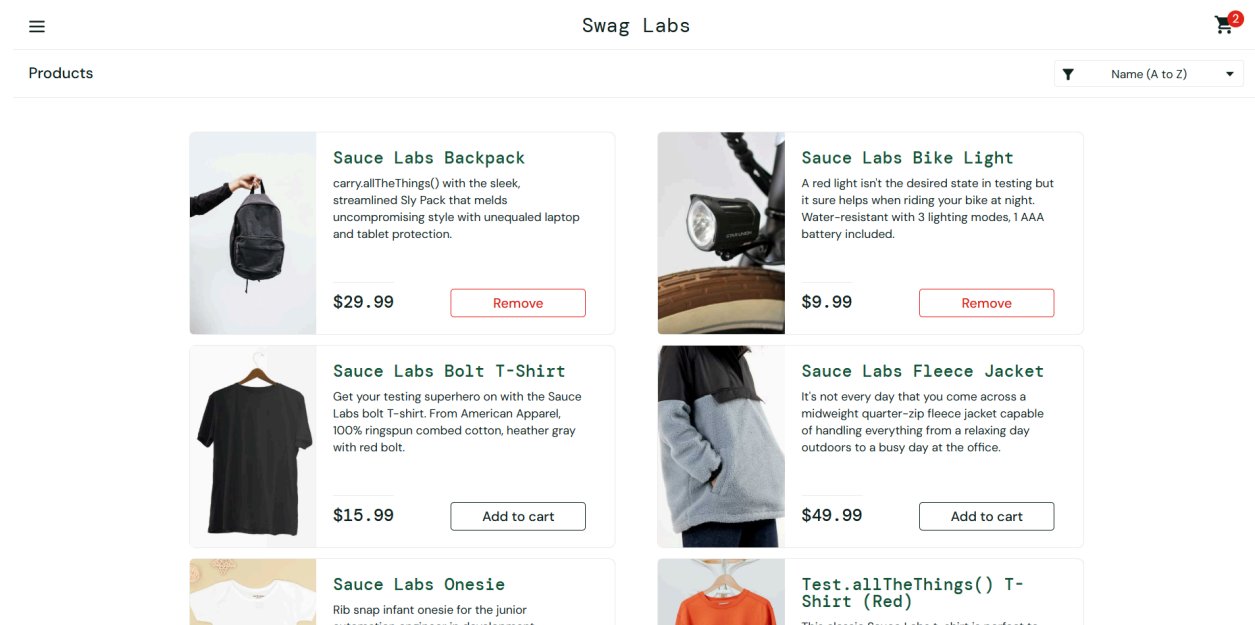

| Field            | Example                                    |
|------------------|--------------------------------------------|
| Test ID          | TC-002-A                                   |
| Title            | Add 2 or more Items to cart                |
| Steps            | Choose items -> Click “Add to cart” button |
| Expected Results | Items selected will be added to the cart   |
| Status           | Pass                                       |
| Remarks          | User can add 2 different items to the cart |

## Test Case 4

| Field   | Example                                          |
|---------|--------------------------------------------------|
| Test ID | TC-003-A                                         |
| Title   | Add 2 of the same item in cart                   |
| Steps   | Choose items -> Click “Add to cart” button twice |

|                  |                                                                           |
|------------------|---------------------------------------------------------------------------|
| Expected Results | Clicking the “Add to cart” button twice makes the item quantity becomes 2 |
| Status           | Fail                                                                      |
| Remarks          | No option to add quantity on the item                                     |

#### Evidence:

## Test Case 5

|                  |                                                                                      |
|------------------|--------------------------------------------------------------------------------------|
| Field            | Example                                                                              |
| Test ID          | TC-004-A                                                                             |
| Title            | View user's cart                                                                     |
| Steps            | Click the cart icon                                                                  |
| Expected Results | Directs the user to the cart page and shows the item/s added to card if there is any |
| Status           | Pass                                                                                 |
| Remarks          | Working as intended                                                                  |

## Test Case 6

| Field            | Example                               |
|------------------|---------------------------------------|
| Test ID          | TC-005-A                              |
| Title            | Remove item/s to the cart             |
| Steps            | Click the cart icon -> Click "Remove" |
| Expected Results | Removes an item/s on the cart list    |
| Status           | Pass                                  |
| Remarks          | No confirmation tab before removing   |

Evidence:
